ANNE AND ERIC MATEO
253 PARK BLVD
WORTHINGTON BLVD OH 43035

Congratulations on your new Newfoundland and welcome to the world of purebred dogs. Your AKC registration dollars support numerous AKC efforts to benefit dogs and dog owners. By registering your dog with the AKC, you supported valuable programs such as Canine Search-and-Rescue, the AKC Canine Health Foundation, the AKC Kennel Inspection Program, public education, canine legislation, and DNA parentage verification.

AKC registration provides wonderful opportunities for every purebred dog lover. The AKC Canine Good Citizen® program is an outstanding way to train your dog in basic obedience, valuable for every family. In addition, many dog owners enjoy the thrill of participating in AKC activities, shows and trials throughout the country. I invite you and your dog to get involved with the AKC!

The cost of veterinary treatment has increased dramatically in recent years and AKC Pet Insurance helps you pay your vet bills if your pet has an accident or illness. Since your Newfoundland is a newly registered purebred dog, the AKC has arranged **30 days of pet insurance coverage* through AKC Pet Insurance for your new puppy at no cost to you. Please call PetPartners at 1-866-725-2747 or visit www.akcpetinsurance.com/certificate to activate your plan.**

Please note, if you ordered multiple items at the time of registration, they will be mailed separately and should arrive shortly. These include the AKC Certified Pedigree, the Dog Care and Training video, *Family Dog* magazine, and the AKC collar tag. If you did not order a Pedigree, you still have the opportunity to do so. An order form is provided on the back of this letter.

All of us want to be responsible dog owners. To help, the AKC offers a wealth of information at www.akc.org. Our site lists national and local dog clubs and AKC Canine Good Citizen® evaluators. Please visit us online and on Facebook and Twitter. If we can be of further service to, please contact us by phone at 919-233-9767 or by email at info@akc.org.

Sincerely,

Dennis B. Sprung
President and Chief Executive Officer

*The AKC Pet Insurance Certificate is administered by PetPartners, Inc. and is underwritten by American Pet Insurance Company, 907 NW Ballard Way, Seattle WA 98107-4607. Activation is required, may not be available in all states and only available to U.S. residents. Eligibility restrictions apply. Visit www.akcpetinsurance.com/certificate or call 1-866-725-2747 for more information or to review terms and conditions.
Please separate below and keep for your records.

Phone: (740) 335-6161
Fax: (740) 335-8366

Patient Information

Client: VERMILLION, AUDRIA
Patient Name: 35512-SEBASTIAN
Reg. Name: SEBASTIAN THE GREAT
PennHIP Num: 109294
Species: Canine
Date of Birth: 05 Oct 2015
Sex: Male
Date of Study: 10 Jul 2017
Date of Report: 11 Jul 2017

Tattoo Num:
Patient ID: 35512-SEBASTIAN
Registration Num: WS51782007
Microchip Num: 941000018601608
Breed: NEWFOUNDLAND
Age: 21 months
Weight: 130 lbs/59 kgs
Date Submitted: 10 Jul 2017

Findings

Distraction Index (DI): Right DI = 0.29, Left DI = 0.31.
Osteoarthritis (OA): No radiographic evidence of OA for either hip.
Cavitation/Other Findings: None.

Interpretation

Distraction Index (DI): The laxity ranking is based on the hip with the greater laxity (larger DI). In this case the DI used is 0.31.

OA Risk Category: The DI is between 0.31 and 0.49. This patient is at mild risk for hip OA.

Distraction Index Chart:

Breed Statistics: This interpretation is based on a cross-section of 2157 canine patients of the NEWFOUNDLAND breed in the AIS PennHIP database. The gray strip represents the central 90% range of DIs (0.33 - 0.85) for the breed. The breed average DI is 0.58 (solid square). The patient DI is the solid circle (0.31).

Summary: The degree of laxity (DI = 0.31) ranks the hip within the tightest 5% of DIs for the breed. This amount of hip laxity places the hip at a mild risk to develop hip OA. No radiographic evidence of OA for either hip.

Interpretation and Recommendations: No OA/Mild Risk: Low risk to develop radiographic evidence of hip OA early in life, however OA may manifest after 6 years of age or later. Risk of OA increases as DI, age, body weight, and activity level increase. OA susceptibility is breed specific, larger breeds being more susceptible. **Recommendations:** Evidence-based strategies to lower the risk of dogs developing hip OA or to treat those having OA fall into 5 modalities.* For detailed information, consult these documents.* Use any or all of these modalities as needed:

Cystinuria DNA Test

Case Number: 117781

Owner: Andrea Vermillion

Canine Information

DNA ID Number: **164560**

Call Name: **Sebastian**

Sex: **Male**

Birthdate: **10/05/2015**

Breed: **Newfoundland**

Coat Color: **Brown & White**

Registered Name: **Sebastian the Great**

Registration Number:

Microchip/Tattoo:

Report Date: 11/13/2018

DNA Result: **Clear (2 copies of the normal allele)**

These results are based on data obtained from analysis of unique DNA loci in accordance with the standards and protocols set forth by DDC Veterinary. The accuracy of the result is based on the information and the quality of samples provided by the client. DDC Veterinary does not assume responsibility of errors due to mislabeled or incorrectly sampled submissions.
